SHAPE THE FUTURE

OF MOON EXPLORATION

*What would you do
when Lunar Communications and Navigation Services
(LCNS) will be available?*

Moonlight Initiative
Call for Ideas and Use Cases

Part of the **Moonlight Initiative** User Engagement activities.
Call closed on 30 April 2022.

Objectives:

- Stimulate Demand for LCNS services
- Better understand future needs for LCNS services
- Identify credible **lunar use cases**

- **36 applications** received from **13 nationalities**
- **Majority from commercial companies** (20)

- **Next steps:**
 - invite best ideas to one-to-one meeting at ESA
 - direct them to most suitable ESA-support mechanisms to mature ideas

Nationality		Entries
Germany		22% (8)
Italy		19% (7)
Spain		14% (5)
Other (non ESA MS)		8% (3)
Canada		5% (2)
France		5% (2)
Greece		5% (2)
Poland		5% (2)
Finland		3% (1)
Luxembourg		3% (1)
Netherlands		3% (1)
Norway		3% (1)
Switzerland		3% (1)

Entity	Entries
Commercial companies	55% (20)
Individuals	25% (9)
Academia	11% (4)
Space Agency	3% (1)
Public Org.	3% (1)
Not-for-profit	3% (1)

OPEN LUNAR
FOUNDATION

Lunar Object Registry

July 12, 2022
Jacob Malthouse
jacob@openlunar.org

A clear and accurate
understanding of what is
happening on and around
the Moon.

Share **where** you are.
Share when to **notify**.

Benefits

- Demonstrate **citizenship**
- Foster **collaboration**
- Reduce **risk**
- Low **cost**

DATA TRANSFER

Mission and Post-mission data aggregation and analysis

- Independent scientists
- General public and journalists
- Students in schools, universities, research

POSITIONING

Enable access to the information coming from the lunar surface

- Real time activity tracking
- Archive data
- Public networking

TELE OPERATIONS

Ad-Hoc ESA Organized PR Events

- Surface assets supervised remote control
- Polls and challenges
- Targetized outreach

SPARTAN SPACE

Elevator Pitch Session – LCNS Call

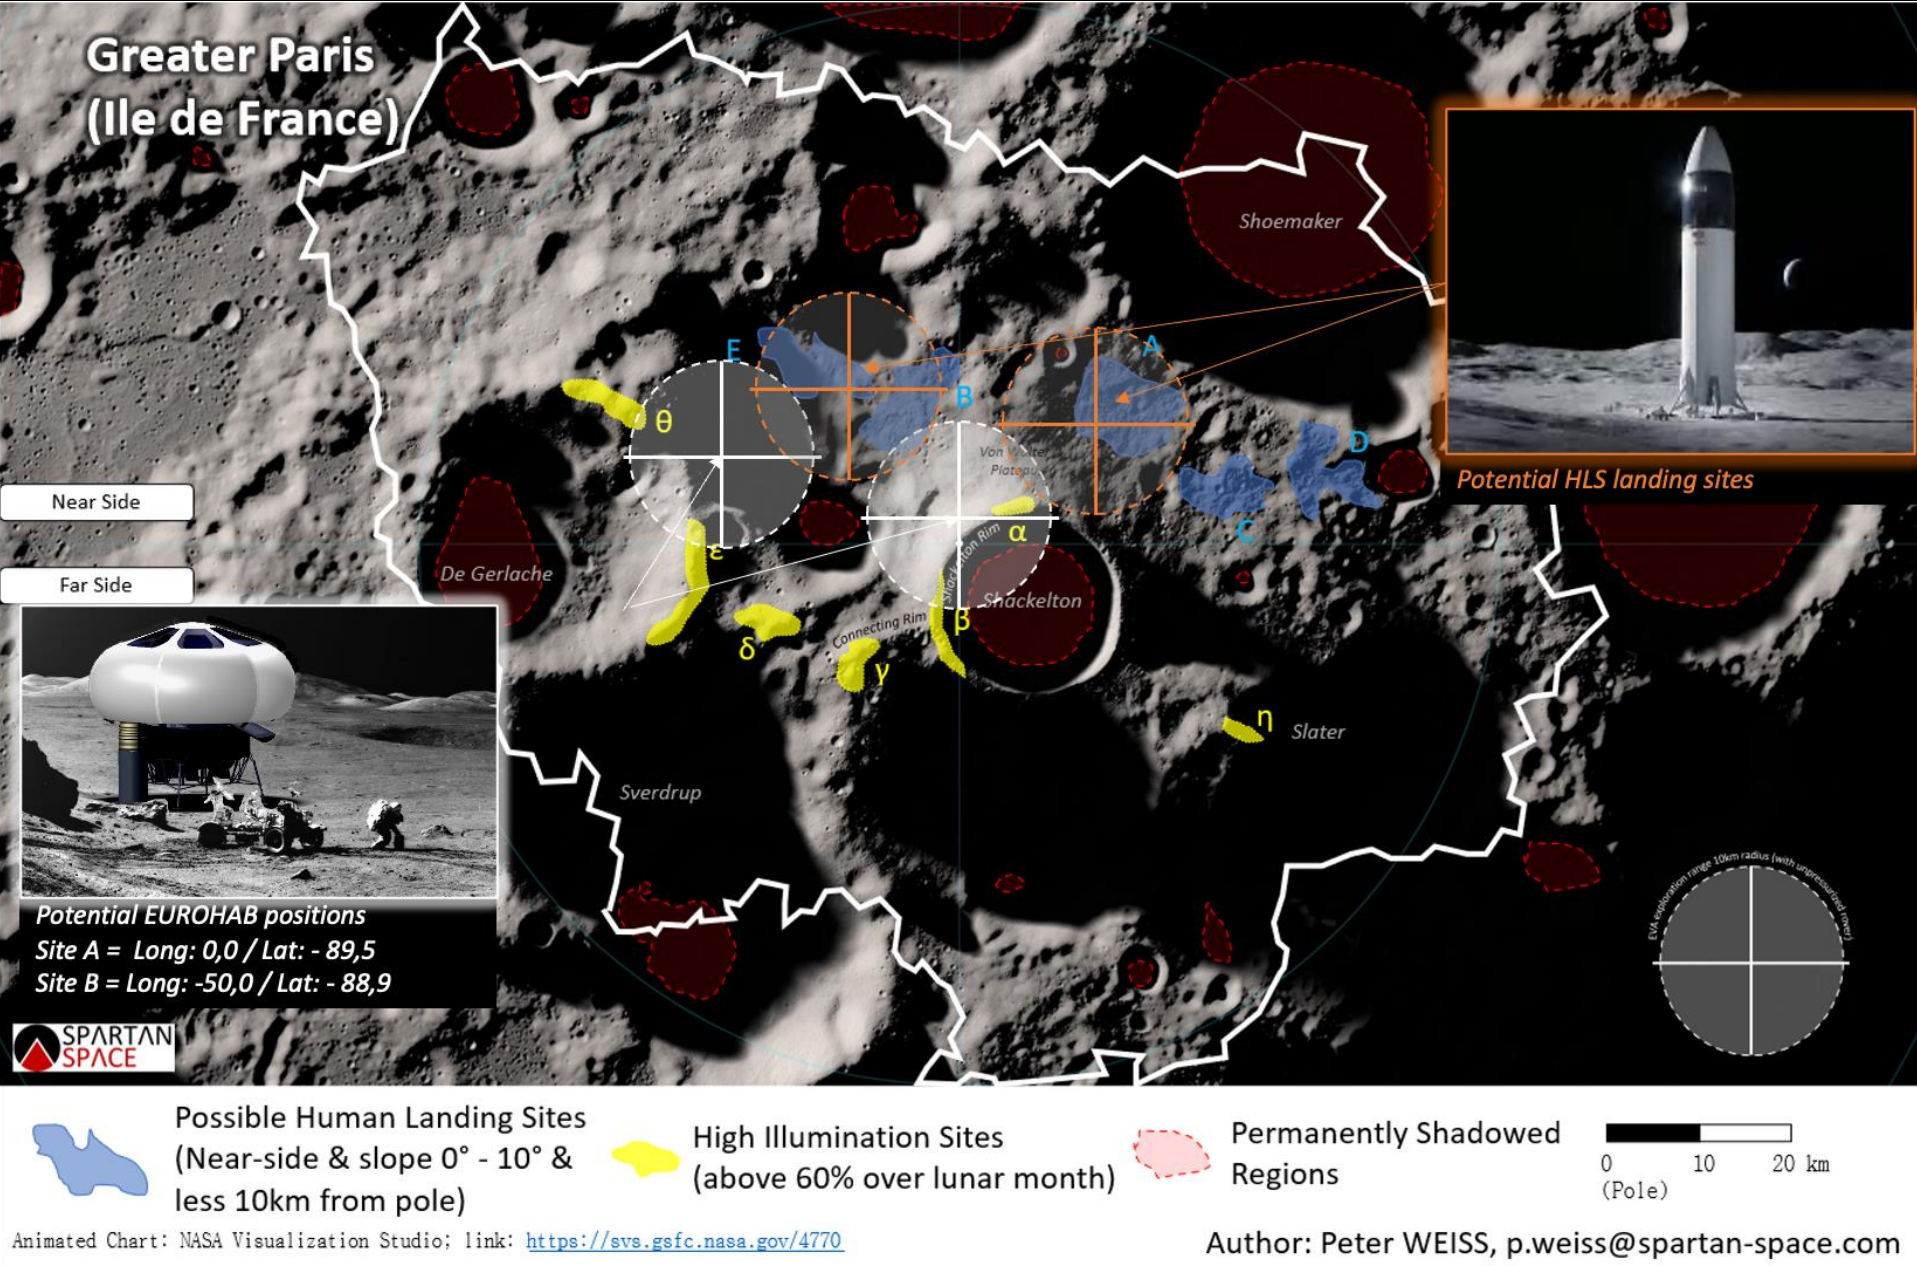

12/07/2022 - ESTEC

Eurohab, credits: N. Singh

© Creations Jacques Rougerie

EUROHAB is a Secondary Habitat, designed as an EL3 payload.

It is positioned on strategic sites to bridge the gap between safe landing sites (for HLS) and sites of interest (PEL, PSR).

SPARTAN SPACE performed a CDD and is working on a Phase 0 under CNES contract.
