

SPACE RESOURCES ACCELERATOR

an ESA BSGN Industry Accelerator

Space for Inspiration, January 2024

Alex Godlewski

powered by LSA, ESA & LIST

The European Space Resources Innovation Centre is world's first innovation centre entirely dedicated to space resources utilization, for human and robotic space exploration, as well as for a future in-space economy.

- HQ in Luxembourg
- 18+ Researchers
- 20+ Projects

AIRBUS

M A Δ N A
E L E C T R I C

 **Air Liquide**

 **OFFWORLD**

SPACE RESOURCES CHALLENGE

competition • 5 projects, 500K€ prize

START-UP SUPPORT PROGRAMME

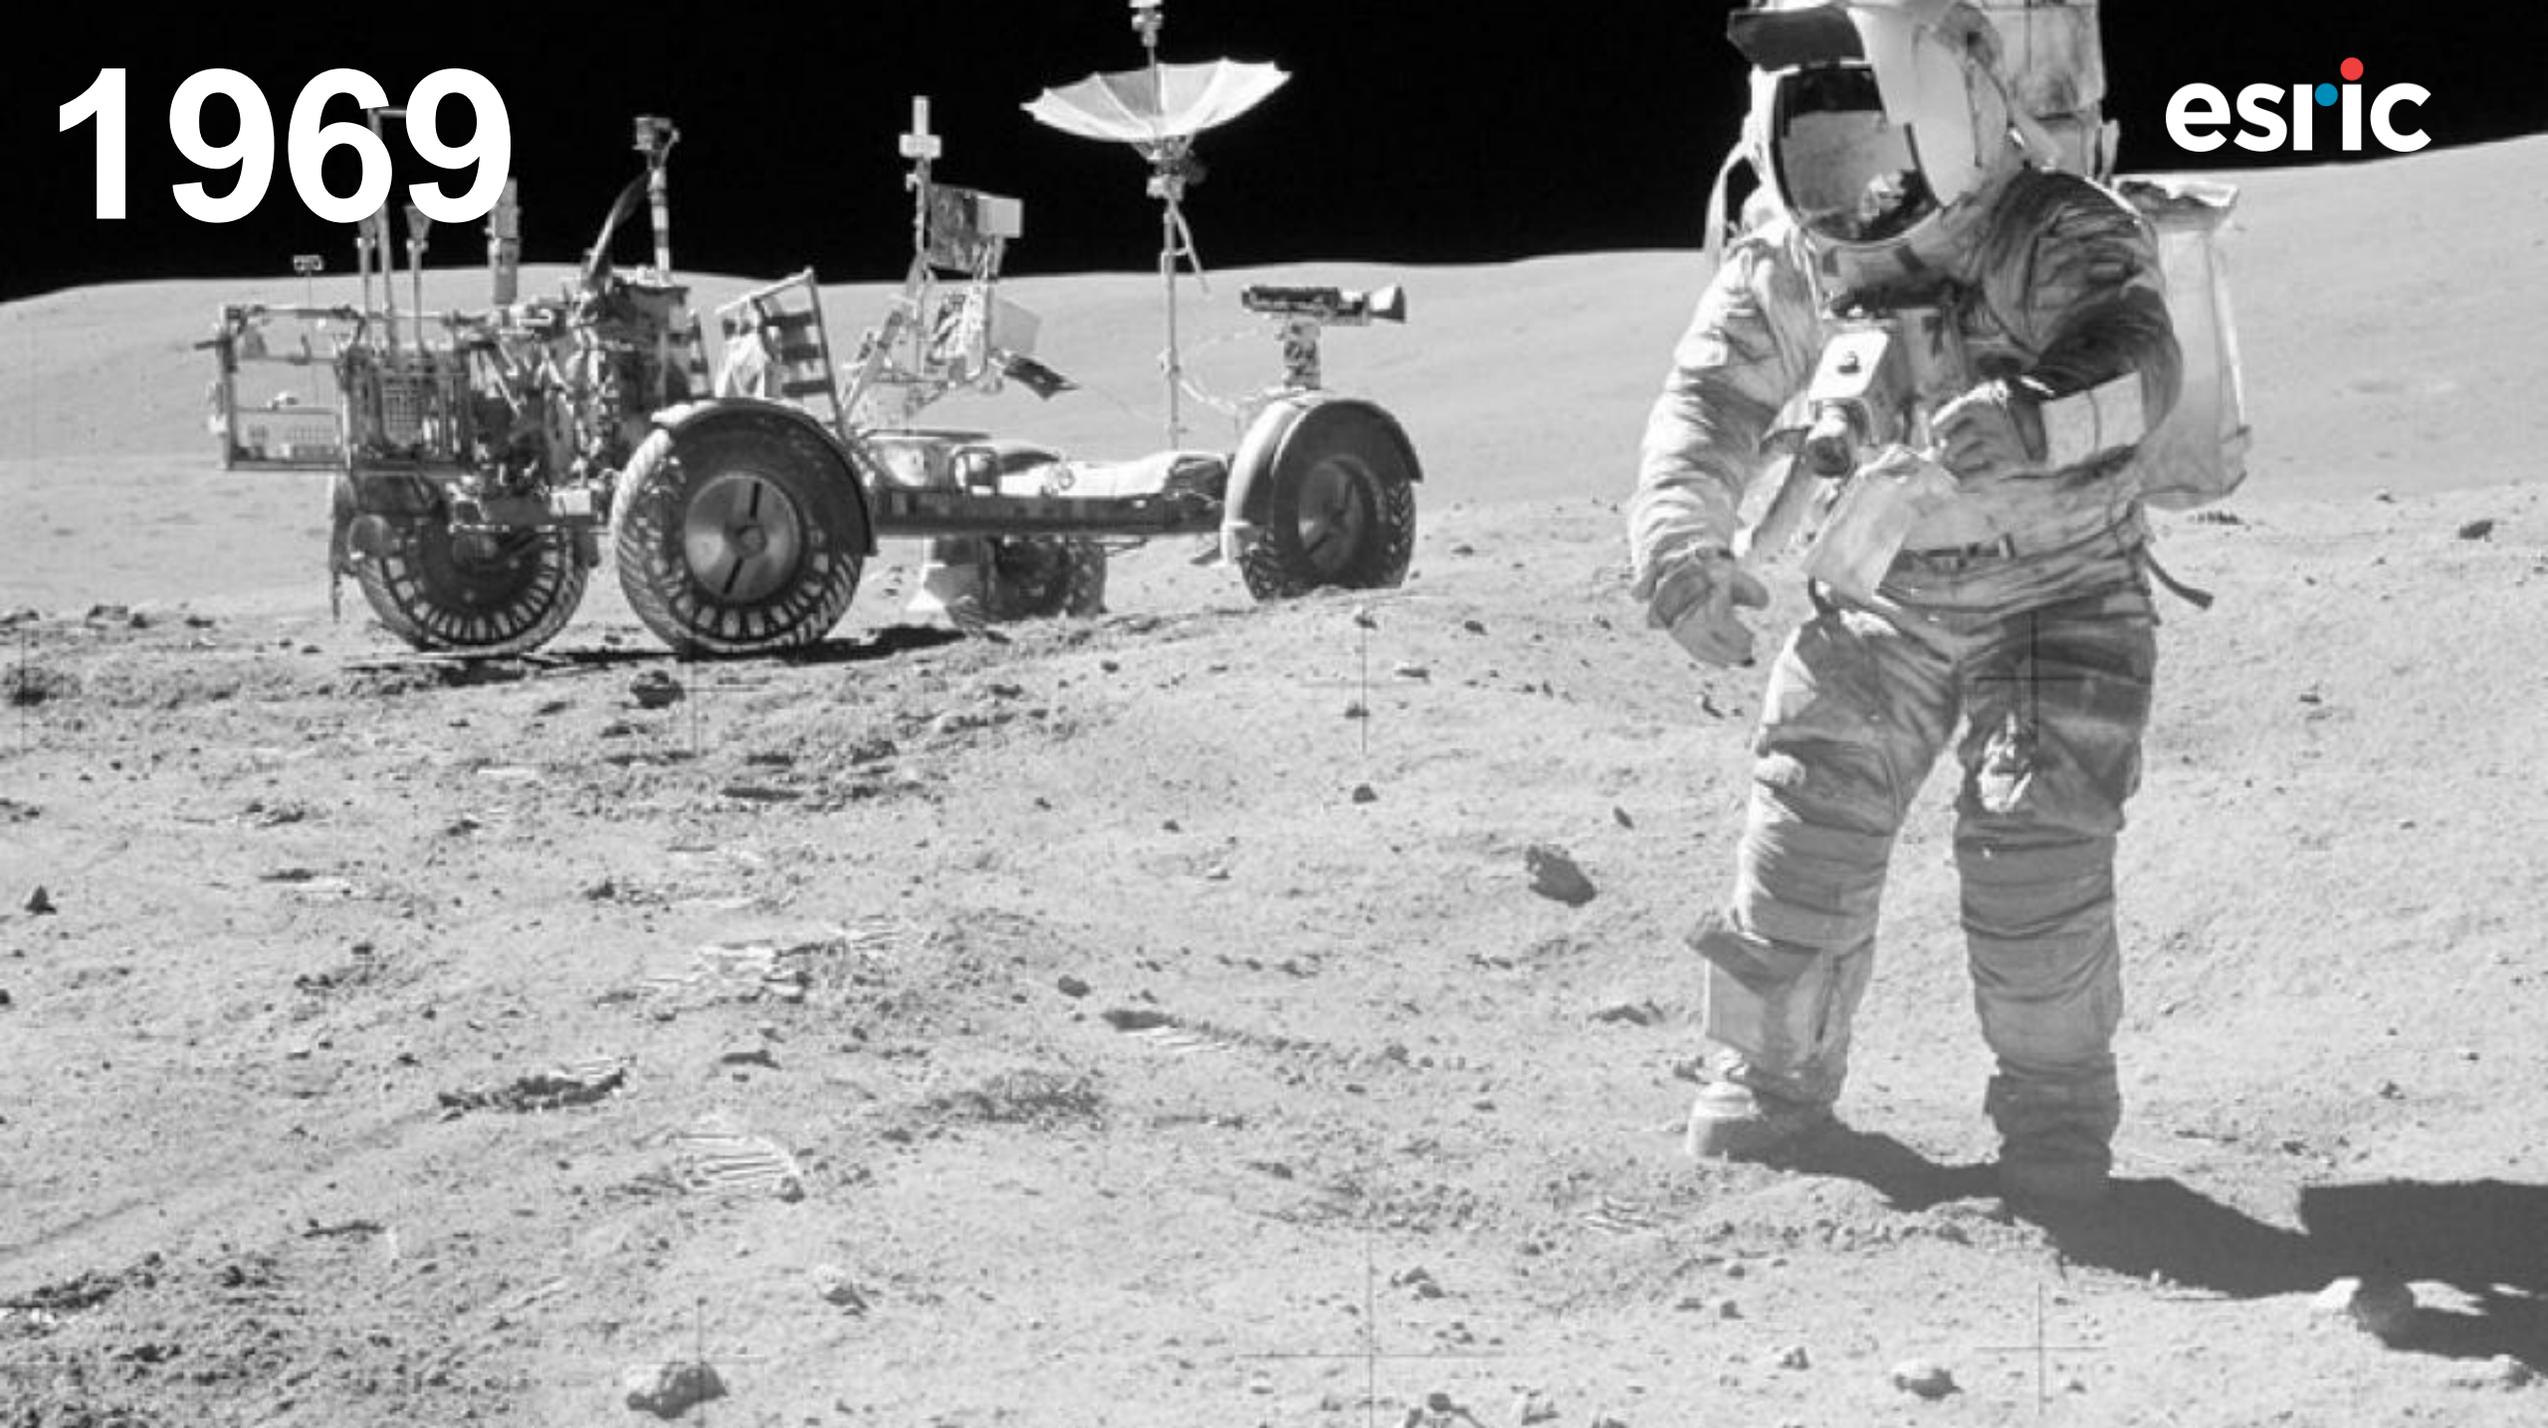

incubator • 45 start-ups, coaching, facilities,
up to 200K€ funding/company

AMBITION:

ACCOMPANY **SCALE-UPS**
TARGETING **THE MOON**

1969

WHY THE MOON?

TECHNOLOGY

scientific progress

better understand our very own planet **Earth** better
prepare our future missions to **Mars**

technology spillovers

materials science, manufacturing, robotics and data
analytics

ECONOMY

entire new economy with a

170B€

cumulated market value (2040)

significant

efficiency gains

for space exploration

SOCIETY

1,000 astronauts

by 2040

sustaining

1.8M FTEs

(2045)

HOW?
